

SGP2012 Targets		IMCSD Targets	
Air & Climate Change			
To reduce the ambient PM 2.5 level to within an annual average of 15µg/m ³ by 2014.		To reduce ambient PM2.5 level to 12µg/m ³ by 2020 and maintain at this level till 2030.	
To improve carbon intensity by 25% from 1990 levels by 2012.		To reduce energy intensity (energy consumed per dollar GDP) by 20% from 2005 levels by 2020, and by 35% from 2005 levels by 2030.	
Water			
Increase supply of water from non-conventional sources, such as desalination and water reclamation, to at least 25% of Singapore's water demand.		Expand NEWater and desalination infrastructure to support future industry needs.	
Ensure that water quality continues to meet international standards.		Improve overall water quality and the water quality at all popular beaches.	
Reduce domestic water consumption to 155L per person per day by 2012.		Reduce domestic water consumption to 147L per person per day by 2020, and to 140L by 2030.	
Waste Management			
Increase the overall waste recycling rate from 40% in 2000 to 60% by 2012.		Achieve 65% and 70% overall waste recycling rate by 2020 and 2030 respectively.	
Nature			
Verify and update information on indigenous flora and fauna through biodiversity surveys.		Implement a National Biodiversity Strategy and Action Plan to research, document and conserve biodiversity in Singapore. Develop a City Biodiversity Index with international partners to promote biodiversity conservation efforts among cities globally.	
Establish more parks and green linkages.		Provide 0.8 ha of park land per 1000 persons by 2030. In the shorter term, increase the amount of green park space by 900 ha by 2020 Increase the length of park connectors from 100 to 360 km by 2020 and developing new leisure options around green spaces.	

SGP2012 Targets	IMCSD Targets
	Add some 30 ha and 50 ha of skyrise greenery by 2020 and 2030 respectively, including 9 ha of green roofs on multi-storey carparks in public housing estates
Public Health	
Increase community ownership to sustain a high standard of public health.	Sustain public education, cleaning and enforcement.
